

## **Invitation to tender for evaluation of Tyfu Pobl programme**

The Federation of City Farms and Community Gardens is inviting organisations and research bodies to tender for the evaluation of the 3 year Tyfu Pobl programme, funded by the Rural Development Plan for Wales 2007-2013, which is itself funded by the Welsh Assembly Government and the European Union.

The programme will provide support and advice for both existing and emerging community growing projects in Wales, enabling the sharing of best practice, dissemination of information and the transfer of knowledge and skills to take place within this sector. It will assist community groups throughout Wales to grow food for local consumption by providing information, training and specialist support that will enable them to bring land into cultivation, to develop and manage the land sustainably, and to ensure that community food growing is accessible to and inclusive of all individuals and communities.

Please see attached brief for full details.

**Deadline date: 31<sup>st</sup> July 2011**

Please feel free to contact Katie for further information:
